

200 µl Graduated TipOne Filter Tip (Sterile), Racked

Nothing goes through!

Protect your samples against unwanted contamination by using TipOne $^{\circledR}$ filter tips. The TipOne $^{\circledR}$ filter is one of the best on the market and protects against aerosol crosscontamination without trapping your valuable samples. The filters contain no additives to interfere with samples.

During pipetting it is not possible to see with the eye if fine aerosols are going into your pipette. If they are, those aerosols can contaminate other samples at a later date.

TipOne $^{\circledR}$ filter tips are proven to block >99% of aerosols and are among the best filters on the market. The results, shown right, speak for themselves!

*The comparative tests were conducted in an independent test institute with filter tips from other leading manufacturers.

Product Features

- $^{\bullet}$ Graduated at 50 µl, 100 µl and 200 µl
- Quality: Highly effective HDPE filter
- Safe: Filter contains no additives to interfere with your samples
